

Cooper's Environmental Our Environmental Policy

IMS

Cooper's Environmental is committed to environmental protection, and will conduct its business and promote its services in a matter that protects people, the environment and sustainability.

We are committed to minimising environmental impacts in all our operations by:

- *To achieve accreditation in ISO14001, to meet our clients requirements and attract new customers.*
- *Complying with all applicable laws, regulations and statutory obligations relating to environmental issues*
- *Managing environmental and related issues in accordance with any client requirements, policies and procedures*
- *Maintaining, monitoring, reporting, reviewing, auditing, investigating, resolving and continually improving the Environmental Management System and programs that are consistent with certification requirement. Reviewing accurate environmental performance measures and communicating appropriately to our employees.*
- *Applying waste minimisation principles by developing innovative and responsible solutions to environmental problems associated with providing our products and services. Reduction, reuse and recycling in all our activities*
- *Taking all practicable steps to prevent pollution and other adverse effects*
- *Educating and training our people to continually improve awareness, skills and knowledge of environmental issues and practices*
- *Communicating regularly with community groups and key stakeholders on environmental issues*

Coopers Environmental recognises its moral and legal responsibility to minimising business operations impacts on the environment. Environmental performance is evaluated by monitoring, inspection and audit assessments of our operational workplaces / systems.

Management will;

- Ensure the policy is followed to minimise any potential environmental risks associated with Coopers operations.
